

3RD ANNUAL  
**Acute  
Lymphoblastic  
Leukemia**  
Fellows Scholar Program

**November 8–9, 2025**  
Wyndham Lake Buena Vista–Disney  
Springs Resort Area  
Orlando, Florida

Presented by Creative Educational Concepts and supported by an independent educational grant from Jazz Pharmaceuticals.

#### ✦ OVERVIEW

Oncology fellows and pediatric oncology fellows who are nominated to attend the Acute Lymphoblastic Leukemia Fellows Scholar Program (ALLFSP) are selected by their program directors. Ideal candidates for the program are dedicated to enhancing their understanding of acute lymphoblastic leukemia (ALL) across various age groups and to advancing their knowledge of treatment methods. During this multi-day meeting, fellows attend interactive learning sessions with expert faculty and participate in breakout workshops in which they discuss clinical cases with colleagues from across the United States. Each participant is required to prepare and present one brief case study on an ALL-related topic of their choice.

#### ✦ ACTIVITY DESCRIPTION

The ALLFSP is an intensive multi-day course designed for adult and pediatric hematology/oncology fellows to expand their education and understanding of the complex and evolving therapeutic space of ALL. The primary objective for the third installment of this program is to provide fellows with a thorough review of the current management for ALL across diverse patient populations. Additionally, the agenda aims to foster discussions on evaluating and differentiating current treatment options, refining treatment approaches and care plans, the future trajectory of therapy, and the questions that are driving research.

#### ✦ WHO SHOULD ATTEND

Fellows who are nominated to attend the ALLFSP are selected by their program directors. Ideal candidates for the program are at least in their second year of an adult or pediatric hematology/oncology fellowship (exceptions for first-year fellows may be considered on a case-by-case basis) and are committed to furthering their knowledge of the treatment of ALL. During this multi-day meeting, fellows attend interactive learning sessions with expert faculty and participate in breakout workshops in which they discuss clinical cases with colleagues from across the United States. Each registrant is required to prepare and present one brief case study on an ALL-related topic of their choice. Attendees of the 2025 ALLFSP will receive a detailed electronic handout and other resources related to the treatment of ALL.

#### ✦ REGISTRATION

Thank you for your interest in the 3rd Annual Acute Lymphoblastic Leukemia Fellows Scholar Program. Program directors are asked to nominate one pediatric or adult hematology/oncology fellow from their program to receive the scholarship and attend the entire ALLFSP. If you have questions about this program, please contact **Ashley Lilly**, Account Director, at [alilly@ceconcepts.com](mailto:alilly@ceconcepts.com).

**Please note:** The program starts on Saturday, November 8, and ends Sunday, November 9. The nominated pediatric or adult hematology/oncology fellow will need to complete the online registration at [ceconcepts.com/allfsp](https://ceconcepts.com/allfsp).

#### ✦ IMPORTANT DATES

FRIDAY  
SEPT  
**19**  
Registration  
Deadline

FRIDAY  
OCT  
**10**  
Case Studies  
Deadline

#### ✦ TRAVEL

Each participant will receive a \$450 travel scholarship on-site at ALLFSP.

- Attendees are responsible for their airfare to and from Orlando.
- Attendees will reserve a hotel room via a secure hotel website once registration is confirmed.

#### ✦ CASE STUDY

All registrants are required to present an ALL-related clinical case during their assigned case study breakout session. All case study presentations must be submitted in advance in PowerPoint format. The presentation should include no more than 6–8 slides, with the expectation of approximately 10 minutes for both presentation and discussion. Case study submission requirements will be emailed to fellows following registration.

*The ALL Fellows Scholar Program provided a great opportunity to network with fellows across institutions, with the unique feature of bringing together trainees across both adult and pediatric oncology, which outside of this venue has been rare in my training. It was interesting to learn about differences in ALL management across institutions and between pediatric and adult populations, and to form connections with fellows at varying stages of training who I am sure will be a valuable resource going forward in discussing difficult cases, and exchanging advice as we continue to navigate careers in malignant hematology.*

**ACTIVITY CHAIR**

**Emily K. Curran**  
MD

Assistant Professor,  
Division of Hematology/Oncology  
Medical Director, UCCC Clinical Trials Office  
University of Cincinnati Cancer Center  
Cincinnati, Ohio

**INVITED FACULTY**

**Adam Duvall**  
MD

Assistant Professor  
Department of Medicine,  
Section of Hematology/Oncology  
University of Chicago  
Chicago, Illinois

**Marlise R. Luskin**  
MD, MSCE

Senior Physician  
Dana-Farber Cancer Institute  
Associate Professor of Medicine  
Harvard Medical School  
Boston, Massachusetts

**Luke Maese**  
DO

Associate Professor of Pediatrics  
University of Utah Huntsman Cancer Institute  
Pediatric Hematology/Oncology  
Primary Children's Hospital  
Salt Lake City, Utah

**Julie Wolfson**  
MD, MSHS

Associate Professor, Pediatric Hematology-Oncology  
Institute for Cancer Outcomes and Survivorship  
Director, Adolescent and Young Adult  
Oncology & Oncofertility Program  
University of Alabama-Birmingham  
Birmingham, Alabama

**TENTATIVE AGENDA**

SATURDAY, NOVEMBER 8, 2025	
12:30 PM–1:30 PM	Registration
1:30 PM–2:00 PM	Introductions from Activity Chair
2:00 PM–6:00 PM	Educational Sessions*
6:00 PM–7:00 PM	Meet the Faculty Dinner
SUNDAY, NOVEMBER 9, 2025	
7:30 AM–8:00 AM	Buffet Breakfast
8:00 AM–10:00 AM	Educational Sessions*
10:00 AM–12:00 PM	Small Group Case Presentations
12:00 PM–12:30 PM	Buffet Lunch
12:30 PM–2:30 PM	Educational Sessions*
2:30 PM–3:00 PM	Wrap-up/Final Discussion
3:00 PM	Departures

*\*Session is eligible for AMA PRA Category 1 Credit*

**LEARNING OBJECTIVES**

1. Evaluate the present and prospective use of asparaginase in various age categories among individuals with ALL
2. Differentiate available asparaginase products, including their dose, route, formulation, pharmacokinetics, and toxicity profiles
3. Utilize strategies to monitor serum asparaginase levels to properly distinguish among asparaginase infusion reactions, clinical and subclinical hypersensitivity, and silent inactivation
4. Incorporate the latest prospective data in the treatment landscape for AYA ALL to refine treatment approaches for this heterogeneous age group
5. Implement multifaceted risk-versus-benefit assessments as part of ALL management in the older adult population
6. Identify the non-clinical drivers of treatment response, including outcomes related to age differences, ethnicity, and location
7. Create risk-stratified treatment plans for R/R ALL based on unique clinical characteristics of disease
8. Assess the management of Ph+ ALL encompassing current therapeutic choices and future strategies
9. Evaluate clinical strategies for the treatment of ALL using a case-based approach with insights from colleagues, faculty, and patients/caregivers

**ACCREDITATION**

In support of improving patient care, Creative Educational Concepts, LLC, is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

**ACCME (Physician):** CEC designates this live educational activity for a maximum of 7 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
